Thread Heaven thread conditioner

Stop tangling and fraying with this new synthetic thread conditioner. Beeswax creates a sticky coating while this makes a slick coating that works more like ball bearings. Works especially well on metallics, silks, and rayon threads to make them more pliable and easier to use. Thread Heaven is chemically inert and will not react with the fibers. Blister packed. From Adam Beadworks.

7420 Thread Heaven

Scissors Keeper

Safely keep track of your scissors with the Scissors Keeper. Colorful magnet holds your scissors in the box to protect the points of the scissors as well as your fingers when searching the bottom of your tote! 2"x4" Scissors Keeper will hold most small embroidery scissors. Clear lid so you can see which scissors are inside. Scissors and needles sold separately. From Yarn Tree.
